

# STARFRUIT

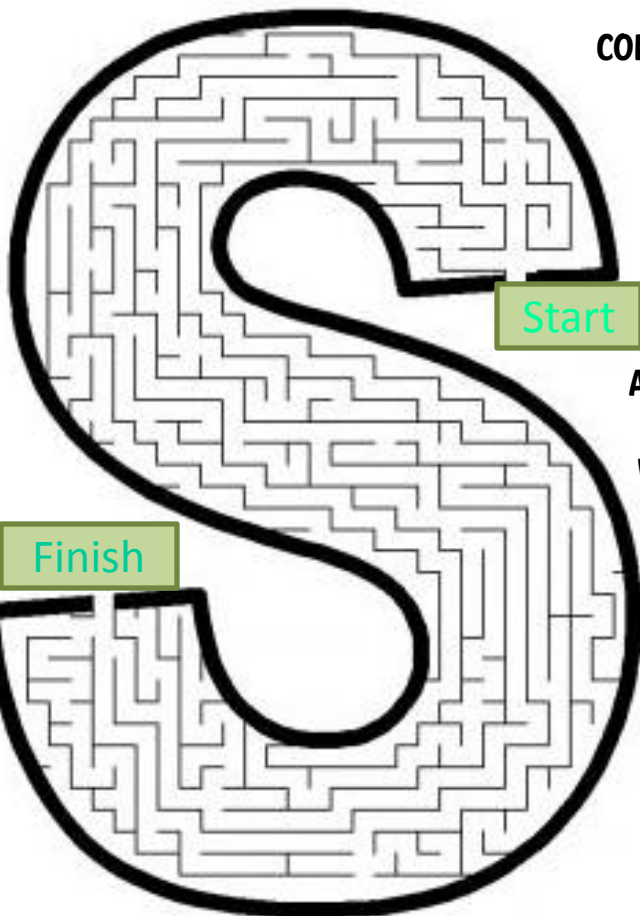

## FUN FACTS

Starfruit is believed to be originated from Sri Lanka!  
It has become so popular that it is now grown in parts of  
America- Florida, Hawaii, and Puerto Rico!

It is harvested when it is green and then as it ripens, it turns  
more yellow.

Each fruit has 5 distinctive ridges running down the sides and  
when it is cut crossways, it forms a perfect STAR!

Starfruit is very popular in Asia, but in the last 50 years it  
has made its name on the American map!
